Position: Maintenance Senior Technician

Date: 02/03/2010

Location: Memphis, TN/BSC

Posting #: 10-136

Job Description:

- Provide maintenance leadership that is consistent with established Barnhart Mission Statement and Core Values
- Provide insight and collaborate on analysis of financial reports (Work orders, P & L, Balance Sheet, etc.) in order to direct branch maintenance projects/systems and determine efficient improvements. Efficiency will be tied directly into Return on capital
- Support maintenance systems and technical projects. This includes Safety, Maintenance, Dispatch, Training, Quality, Project Management, DOT and Facilities
- Assisting the branch safety committees as they meet monthly as maintenance issues come to light. Additionally, assist Barnhart's Equipment Safety Systems, Training programs and Incident Reviews
- Lead in Purchasing Systems, Technical Training, Technical Analysis and other maintenance projects. Support evaluation, and continuous improve the maintenance efforts with the Branch Team
- Support evaluation and improvement of the scheduling function with the Branch team in maintenance issues
- Lead and Support the Barnhart team in Technical Maintenance issues both with and without the Training Department's resources. An ongoing project will be maintenance equipment Qualification Cards and Barnhart University topics
- Collaborate with the Branch Team in developing a distinct branch metric system to maximize maintenance quality in light of return on capital
- Support Barnhart Branch Team to ensure DOT compliance and readiness
- Provide knowledgeable leadership in critical areas of Barnhart Maintenance functions. This includes but is not limited to DOT requirements, OSHA regulations, ANSI standards, Barnhart SOP'S, Qual Card Program, and Barnhart Safety Program
- Provide vision, strategy and implementation to continue to challenge the company to seek areas of growth in markets and in overall performance. In addition, training our people for future growth and strong performance is a function
- Your role is largely about people. We have industry leaders working for our company. They need coaching, counseling, correction and consoling. This has to be in your DNA.
- This position reports directly to the Branch Service Center – Maintenance Manager
- Full-time position, excellent benefits package

Qualifications:

- Leadership required, Bachelors desired, Master preferred
- Ability to Lead multi location Maintenance Process, Drive process improvement analysis and achieve industry standard goals
- Proven track record in Maintenance Leadership of at least 5 years
- Must pass drug screen and background check
